## The Best Kitchen for Our Busy Family

*"A very active family, we live in our kitchen."*

When we first moved in, we really liked our kitchen. It served our simple needs as we settled in with our tiny family. Then, as our family grew, the kitchen became the hub of all our family activities . from breakfast through dinner, from homework to gatherings with family friends. We realized everything was happening in our simple kitchen, and wanted it to be so much more.

We met with Jerry, who carefully listened to our needs, dreams . and budget. He understood that a busy family like ours lives in the kitchen.

Today, the only thing our kitchen lacks is a revolving door. And we probably could have had one installed if we had asked! Our kitchen features:

- Beautiful cabinetry that looks like furniture, yet durable enough for our kids.
- A place for everything . all of our dishes and glasses, cookware, utensils and gadgets.
- Incredibly beautiful granite countertops that not only look great, but will endure our active family.
- A huge six-burner gas rangetop and a large capacity 48-inch refrigerator.
- Customized storage space for each of our kids to put their own stuff away . they love it!

Now, as we live in our kitchen, the kids can do their homework while we prepare dinner. We can proudly entertain guests in a warm and beautiful environment. And we can enjoy a cozy Sunday breakfast with our children. Our kitchen truly is the heart of our home.
